A N D

For Sustainable Design, Universal Design, and Safety/Security/Privacy Projects,

VISTA Window Film family of products:

- Increase occupant comfort thus creating a healthier and more productive environment in which to live and work.
- Protect interior furnishings, electronic equipment and artwork from UV degradation.
- Enhance a building's appearance by maintaining a uniform exterior appearance.
- Provide privacy for interior glass surfaces.
- Provide a safety shield in the event of glass breakage.
- Deters vandals from entering facilities through glass windows and doors.

Satisfying the needs of industry leaders nationwide:
