

Covid 19 Best Practices

Residential Commercial

- Our employees will have their temperatures taken every AM prior to entering our materials location.
- We determine if they are experiencing any symptoms or if they have had a close relationship with someone diagnosed as positive. If so, they are asked to self-quarantine.
- Our installers have been instructed to keep social distancing rules and wear masks, unless no one is near the installation area.
- Our techs use water-based slip solutions with soap that will remove virus from the glass, film and frames.
- We make certain that cloth materials are properly laundered after use.
- Credit cards may be called in to our office at 813-949-3456.

Automotive Shop:

- Contract-tracing by registering visitors/customer's name, contact number, arrival date and time.
- Provide hand-disinfectants for visitors and customers.
- Temperature-taking.
- We will limit access to our waiting room area.
- Face masks for frontline staff who are liaising with customers in person.
- Enforce simple visitor crowd-management by encouraging pre-bookings to avoid servicing queues.
- Your vehicle will be wiped down in the interior with a United States Environmental Protection Agency (EPA) registered disinfectant that are leather/fabric-safe, to disinfect the driver's seat of vehicles before and after tinting.
- We will disinfect keys.
- Our office team will be instructed on proper procedures to handle payments with safety as a key concern.
- Provide hand-disinfectants for visitors and customers.
- Temperature-taking for our installers.
- Disinfect showroom regularly, especially tint-meter and heat demonstration kits with EPA-registered disinfectants; and
- Disinfect the tinting bay after each vehicle is completed.
